

Tobias Köhler

M.Sc. Mechanical Engineer ETH

Professional Experience

● Sensor Development Engineer Current

📅 05/2024 - today • 🏢 **Angst+Pfister**

- Development and optimization of sensor technologies
- Testing and validation of sensor performance
- PCB Design

<> Projects

> Test

● Intern Development Engineer

📅 04/2022 - 10/2022 • 🏢 **Syntegon Packaging Systems AG**

- Construction with SolidWorks
- Static simulations
- Test set-up for laser sensors
- Thermal expansion measurements
- IT tool coding using VisualBasic
- Data analysis and visualization

Education

● Master of Science Mechanical Engineering ETH

📅 09/2022 - 03/2024 • 🏢 **ETH Zurich**

- Multiphysics simulation, learning, additive manufacturing and optimization problems
- Semester thesis at startup diaxxo
- Grade 6.0 'Disinfection Mechanism of a PCR Device'
- Master thesis at Balgrist University Hospital 'Textile Sensors for Diabetic Patients'

Publication: [View Publication](#)

● Bachelor of Science Mechanical Engineering ETH

📅 09/2018 - 09/2021 • 🏢 **ETH Zurich**

- Focus on "Engineering for Health"
- Bachelor thesis at ARSL (Acoustic Robotics for Life Sciences and Healthcare Lab) Grade 6.0 (best)

Publication: [View Publication](#)

● Matura

📅 08/2012 - 07/2018 • 🏢 **Kantonsschule Rychenberg**

- Language profile (English/Italian)

📅 **Date of Birth**

17.12.1999

📍 **Address**

8400 Winterthur, Switzerland

📞 **Mobile**

✉ **E-Mail**

Languages

🌐 Languages

German

English

French

Italian

<> Special Skills

🔗 CAD Design and Simulations in NX, SolidWorks, COMSOL and Ansys

<> Programming with C++, Python, TypeScript and MATLAB

🔗 Manufacturing technology: Turning, CNC milling, MIG/MAG welding and additive manufacturing (3D printing)

🔗 Mechatronics

🔗 PCB Design with KiCad

<> MATLAB and Simulink
